An Enduring Benefaction?

Consider the College

By MILO LAWTON
Director of Alumni Affairs

During recent years the State College of Iowa has received an increasing number of bequests from former students, and faculty friends. These gifts have been gratefully received and are being used to perpetuate the wishes of the donor. Most of those received to date have been designated for some form of student aid. Recognizing that the decision to make a bequest is a very personal one, I would like to pass along my views on the subject for your consideration.

I believe that everyone should consult with an attorney and make a will. I suggest this because everyone owns something. Everyone dies and that something is left. Everyone can dispose of that something according to his wishes, if he makes a will. If he doesn't the state will dispose of his something, probably not according to his wishes.

I believe a gift to the College or University of your choice merits your consideration if you would make an enduring benefaction.

Many of the things to which we devote our time and attention during a lifetime do not measure up to the test of time. A lifetime may be devoted to building a strong and prosperous business only to have it disintegrate in hands less skilled.

The needs of many a worthy charitable effort pass away within one generation and are soon forgotten.

Certainly one of the institutions which best stands the test of time is the well established college, whether public or private. Once the gratitude and affection of a large number of students is established for a college,

a hundred years serves only to confirm its existence. The efforts and achievements of this continuous flow of students opens the door to further development of the institution and an ever widening circle of influence.

I believe State College of Iowa is worthy of your consideration as a possible beneficiary because the alumni and the institution itself have more than fulfilled the expectations of the founding fathers. Graduates of this institution have served in the public schools of every county in Iowa and in every state in the United States. The fact that 99% of those graduates seeking teaching positions during the 1950's were placed testifies to the quality of the service rendered. Ninety-five percent of those graduates teaching have taught in the public schools of Iowa.

State College a National Leader

Although it has been generally accepted that the graduates of this institution have probably made their greatest impact at the elementary and secondary level, it is interesting to note that State College of Iowa ranks among the leaders of United States institutions in several categories of higher education. Recent research indicates that Iowa State Teachers College was among the 95 United States institutions which produced the largest number of bachelors who later attained the doctorate during the 20 year period, 1936-56. These 95 institutions (8.1% of the 1177 institutions included) produced 74% of the people who went on to secure the doctorate. Iowa State Teachers College ranked 17th among the leading 95 institutions whose bach-

AN OPPORTUNITY for lasting contribution.

elor's degree graduates went on to attain the doctorate in education.

A study of 264 selected colleges and universities revealed that Iowa State Teachers College ranked 39th out of a total of 836 institutions whose baccalaureate degree graduates went into college teaching.

Certainly our alumni have more than justified the faith of the College Founding Fathers both in terms of service to the public schools of Iowa and in terms of service to higher education.

Your Help Needed

I believe that SCI will need your help. During the 1960's the College will experience a growth and development unprecedented in its 85 year history if available evidence is an accurate predictor. This means that every resource at our disposal will be required to maintain the quality of education to which we are accustomed. Of course it is the hope of our faculty to improve on this quality and they are devoting many hours of time and study to this end.

We expect that the citizens of Iowa will continue to give good support to this institution. However, it appears that their best effort is not apt to provide more than the bare minimum essentials. It, therefore, seems appropriate that we who have benefited from the educational opportunities they have provided in the past do our best to provide the difference between the bare essentials and that in which we can take a real pride. This difference may in some instances mean the difference between a mediocre job and a job well done.

I believe that the attention of the nation will be focused on education at all levels during the next ten years as never before. Since the primary function of State College remains that of Teacher Education it would seem to me that our alumni and faculty have a greater opportunity to make lasting contributions to the welfare of the state of Iowa, the nation, and the teaching profession than ever before.

Full Slate of Courses Awaits Summer Students

The College is offering a broad schedule of course offerings during the 1962 summer session. Summer session institutes, workshops, and camps add to the varied offering. The summer session program regularly includes the entire range of courses in the General Education program and in the Professional Sequence and offers limited opportunities for student teaching at the elementary school level. In addition to this, a wide range of electives is available in the various subject-matter fields and in professional education.

The graduate program provides an extensive array of offerings during the summer session. It is possible to complete a graduate degree program entirely by summer sessions. Two graduate degrees are available, the Master of Arts in Education degree and the Specialist in Education degree.

The summer session is geared to the special needs of experienced teachers working toward the completion of their degrees. Upper level undergraduate courses are available in subject matter areas and in professional education, and the variety is sufficient to meet individual needs.

The regular staff of the College is supplemented by a number of visiting instructors coming from various parts of the nation and from abroad. Visiting lecturers of national and international reputation are engaged to present topics of both general and special interest.

The Music Department will present choral, band, and orchestra concerts, and the music faculty will present evening recitals.

As a special feature, a number of authorities on various aspects of non-Western life will be brought to the campus to deliver lectures, and films and art exhibits in this area will also be shown.

MALCOLM PRICE LABORATORY SCHOOL

The Laboratory School will be open for the duration of the summer session.

Elementary School. There will be sections of each grade, kindergarten through grade six, plus one junior high school section, grades seven and eight.

Special Education: Mentally Retarded. A special class of educable mentally retarded children will provide opportunities for college students to actually work with retarded children.

Senior High School Seminar in Contemporary Social Problems. Individual and small group research will be emphasized, with considerable student freedom in selecting specific problems designed to show the application of social science principles to the study of modern American social, political, and economic behavior.

Senior High School English Workshop. Class activities will center on individual and group writing and speech activities, on structural lin-

(Continued on page 13)

Vets Should Bolster Track, Baseball

A dozen lettermen, including five of last year's seven top point-getters, carry the hopes of State College of Iowa's 1962 track team. Coach Art. Dickinson also has some talented sophomores, but veterans will carry most of the load through a 16-meet schedule.

John Raffensperger, leading scorer the past two years with a 181 point total, is back for a final fling in the sprints, 440 and low hurdles. The all-conference football end is also a key performer on Panther relay teams.

Other leading scorers returning from last season's team are Gary Shoemaker, Paul Drefke, Dick Dotson and Larry Markley. In fact, the only ones missing from the top seven are Max Huffman and Hal Byram.

Dotson will be trying to better his own indoor pole vault record of 13 feet, 4½ inches. Dick is also a two-time conference champion in his specialty.

The graduated Huffman set the only other school mark last year when he broad jumped 22-9 indoors.

Shoemaker and Drefke are both hurdlers, while Markley's specialty is the middle distance races.

Other veterans returning from the '61 team are Bob Crane (sprints and vault), Bill Kaufmann (high jump), Dave Linder (middle distance), Jim Miller (distance), Dick Shelko (discus and javelin), Dick Smith (discus), and Dick Sherman (weights).

Two sophomores to watch are Dave Suntken, who high jumped 6-4½ indoors last year, and John Begley, who had a 22-9½ broad jump. Both are records for SCI freshmen.

Other promising newcomers are Glenn Connor, Mike Long, Jay Prichard and Esfandiar Sattari. A specialist in the javelin, weights and high jump, Sattari is from Iran.

Coach Mon Whitford has several gaps to fill before his State College of Iowa baseball team opens defense of its North Central Conference title.

Gone from last year's club that had an 11-4 record and earned an NCAA playoff berth are the two leading batsmen, Lyle Thompson and Larry Kehoe, and the No. 1 pitcher, Ed Watt.

Shortstop Ed Ware, outfielder Jim Steiert and pitcher Darrel Bunge head the list of eight returning lettermen.

Graduation took outfielder Thompson and first baseman Kehoe, and a professional contract ended Watt's collegiate career. In all, eight vets will be missing.

There are no lettermen candidates at first and third, and only two in the outfield. Coach Whitford will rely on sophomores to plug those holes and reinforce several other positions.

Steiert hit .373 and Ware .333 for the Panthers last season, and both got their share of extra-base raps. But no other returning regular hit over .250.

Bunge fanned 40 in 30 innings in compiling a 3-0 record. He'll be called upon to work more frequently than that this spring. The slender right-hander will be backed up by vets Chuck Lammers and Jerry Holbrook, who will take a shot at pitching after serving as an infielder the last two years.

Second baseman Dave Cox, catcher Bernie Hutchison and outfielder Gary Floyd are other 1961 letterwinners. They'll be striving to improve meager batting averages.

Best of the sophomores are Bruce Lein and Frank Waterhouse at first base, Gary Anderson at second, Bob Homolka at third, catchers Duane Josephson and Cal Uhlig, and pitchers Bob Kunkel and Dave Cronin.

Track Schedule

Indoor Schedule

- Feb. 17 Cornell here
Feb. 24 Iowa State here
Mar. 3 Wartburg and Iowa Wesleyan here
Mar. 10 Conference South-Half Quadrangular here (South Dakota, Augustana, Morningside and SCI)
Mar. 17 Grinnell here
Mar. 24 Iowa College Indoor Relays here

Outdoor Schedule

- Apr. 14 at Cornell Relays
Apr. 21 State College Relays here
Apr. 25 at Grinnell Triangular (Morningside SCI and Grinnell)
Apr. 27-28 at Drake Relays
May 1 at Platteville State
May 5 Iowa State here
May 8 Winona State here
May 18-19 Conference Championships here
May 30 at Iowa AAU meet

Baseball Schedule

- Apr. 6-7 Drake here (2)
Apr. 10 at Iowa State
Apr. 13-14 Open
Apr. 16 Coe here
Apr. 17 Winona State here
Apr. 20-21 at Minnesota (3)
Apr. 27-28 Augustana (2)
May 2 at Wartburg
May 4-5 at South Dakota (2)
May 11-12 Morningside here (2)
May 15 La Crosse State here
May 18-19 Conference Playoff
May 23 Wartburg here

Bill Smith, '50, will coach the U.S. free-style wrestling team at the World Championships held in Toledo this summer. Smith won a gold medal in the 1952 Olympics, and won National Collegiate championships twice.

Chuck Patten, '61, has been appointed freshman wrestling coach at the University of Oregon, where he is doing graduate work.

25-Year Award To Mon Whitford

L. W. (Mon) Whitford, State College baseball coach, has received a 25-year award from the American Association of College Baseball Coaches.

Whitford

In 33 seasons, Whitford's SCI teams have won 256 games and lost 184. Twice in the past four seasons the Panthers have won the North Central Conference championship and earned an NCAA regional play-off berth.

Whitford and other 25-year coaches received their awards at a recognition dinner in Chicago.

Raffensperger, Dotson 1962 Track Captains

John Raffensperger and Dick Dotson have been elected captains of State College of Iowa's 1962 track team.

Raffensperger

Raffensperger, a senior from Iowa City, has led the Panthers in scoring the past two springs, competing in the sprints, low hurdles, broad jump and sprint relays. He has also been an outstanding end on SCI football teams the last three seasons, earning All-North Central Conference honors in 1960 and 1961.

Dotson

Dotson, a Waterloo senior, is a two-time conference pole-vault champion. He holds the SCI indoor record of 13 feet, 4 1/2 inches. Dotson earned a basketball letter as a sophomore.

The State College of Iowa track team opens its season Feb. 17 with Cornell here.

Original Work by SCI Artist . . .

"Symphonic Sculpture" for Music Building

Symphonic sculpture" will be a unique part of the new Music Education Building now in final stages of completion on the State College of Iowa campus in Cedar Falls.

The sculpture, created by Don Finegan of the SCI department of art, symbolizes a union of art form and music in an unusual combination of copper, bronze and fiber glass. The work will stand in front of the new building as a "Symphony of Three Forms" and may be seen by students and the general public in the late spring.

The State College artist has used a

technique in his sculpture which has never been used before. He has welded formed strips of copper and bronze with catalyzed fiber glass.

The work allows the true color of the metal to blend and soften into the translucent form of the fiber glass, resulting in a synthesis of both form and technique.

"Even though no direct parallels can be drawn between one art and another," said Finegan, "the commission to create these sculptures gave me considerable opportunity to consider the profound relationships between the two arts."

"SYMPHONY OF THREE FORMS," an unusual creation in bronze, steel and fiber glass, was created by SCI artist Don Finegan, shown here. The three forms will be placed in front of the new Music Education Building.

"Throughout history, painters and sculptors have been inspired by great works of music, even as composers drew their inspirations from painting and sculpture."

"I hoped, by using these materials, to symbolize the musical composition with its color, themes, tempo and form all joining dynamically into the work as a whole," said Finegan.

"The nature of the forms is such that one leads to the other, giving the viewer the opportunity to see the development of moods and relationships in the sculpture. The forms will be placed so that all three pieces will always be seen overlapping, interweaving and integrated, similar to movements in a symphony."

"The first form (seen in foreground) might typify the first movement of a symphony," said Finegan. "It is an introduction—a little more direct and solid with an effect of sweeping into the other forms."

"Another form (far right) might be the elaboration of the theme. Its conflicts and contrasts are stronger and it is by far the most active of the three pieces. This form reflects the repetition and development of motif that is found in musical composition."

"A third form," continued Finegan, "is more vertical in movement and represents the finale or climax of the work." (Middle sculpture.)

Finegan, a member of the State College department of art since 1957, is a specialist in ceramics as well as sculpture. The first use of this material was his creation of the "Figure of Christ" designed for the Zion Lutheran Church in Waterloo. He is presently design consultant for the Nazareth Lutheran church now under construction in Cedar Falls, and is designing several sculptures for the new building.

Finegan is represented in the J. B. Speed Museum of Louisville, Ken., with a stone sculpture head of "Charon, Ferryman of Hell." His "Seagull's Cry," a sculpture in wood, is in the Des Moines Art Center.

College Initiates First Institute in Social Science

The College is offering, for the first time this summer a special Social Science Institute in history for high school teachers.

The Institute will be held during the regular eight weeks summer session from June 18 to August 10, and will offer eight semester hours of graduate credit.

Participants in the program will take two refresher courses in the areas of either world history, American history, or traditional history of the Far East.

A special two-hour seminar in the teaching of history will be required of all participants. The seminar will examine current interpretative studies in historical fields and will provide opportunities for the preparation of new teaching materials.

The summer program will also include special guest lecturers.

"Very few institutions have attempted to provide this kind of a summer program," said Dr. Donald Whitnah, institute director and assistant professor of history at SCI. "Our institute is designed to bring our high school history teachers up to date on the latest scholarship in the field, and will be similar to the federally supported institutes in science and mathematics which are also offered at SCI."

"Regular summer tuition fees will be charged for institute participants," he said. "A number of local school systems are making funds available for individual history teachers to facilitate their study at the institute."

Further information may be obtained by writing Dr. Whitnah, department of social science, State College of Iowa, Cedar Falls.

The Faculty

Dr. Douglas to Term on National Commission

Dr. Lloyd V. Douglas, head of the department of business education at the State College of Iowa, has been appointed to a four-year term on the National Policies Commission for Business and Economic Education.

The Policies Commission is a joint responsibility of the United Business Education Association (a department of the NEA) and Delta Pi Epsilon, national honorary graduate fraternity for business teachers. Dr. Douglas will serve as a representative of Delta Pi Epsilon.

The Policies Commission serves as the spokesman for business and economic education on behalf of U.S. business teachers educational planning and policies of business and economic education.

Article by Dr. Beck In "Exceptional Children"

Dr. Harry S. Beck, director of the State College of Iowa Educational Clinic, is the author of an article published recently in "Exceptional Children," a journal of the Council for Exceptional Children, a department of the National Education Association.

The article, entitled "Detecting Psychological Symptoms of Brain Injury," summarizes medical and psychological diagnostic methods.

Article on Papier-Mache Uses by Marjorie Campbell

"Built-in Three-dimensional Color" is the title of an article by Miss Marjorie Campbell of the State College of Iowa art department which appeared in a recent issue of "School Arts," a national art education magazine.

The article tells of the imaginative use of color in working with papier mache by SCI students in a course on arts for elementary grades.

Prof. Eblen Head of Cerebral Palsy Group

Dr. Roy Eblen of the State College of Iowa faculty, has been named head of the State United Cerebral Palsy association.

Dr. Eblen is assistant professor of speech in the department of languages speech and literature.

Active in the local program of UCP, he is a member of the board of directors of the Northeast Iowa division and was recently named a member of the executive committee of the board of directors of the National UCP.

Three Year NCTE Term To Dr. Vander Beek

Dr. Howard Vander Beek has been elected to the executive committee of the National Council of Teachers of English.

One of seven persons on the committee, he was named to the position for a three-year term at a recent national convention of the 70,000 member Council.

Dr. Vander Beek is professor of teaching at Malcolm Price Laboratory school and is chairman of the department of language arts for the school.

Editing Post to Harland Samson

Announcement has been made by the American Vocational Association of the appointment of Harland Samson, assistant professor of business education at the State College of Iowa, to a two-year term on the Editorial Board for the American Vocational Journal.

Samson will be responsible for securing and editing all professional writings dealing with the field of Distributive Education.

He now serves as Iowa State Teacher Educator for Distributive Education and has also served the state one year as State Supervisor of Distributive Education.

Honor System Under Study by Students, Faculty

The first draft of a constitution for an Honor System at the State College of Iowa has been drawn up by a student-faculty committee after several months of investigation and preliminary planning.

Plans are underway for informing the student body and faculty of the committee's proposals.

"The proposed constitution will probably be brought to a student body and faculty vote sometime this spring," said Dr. Walter De Kock, committee chairman.

The proposed constitution, pending revision and acceptance by students and faculty, would be tried for a three-year experimental period, excluding summer sessions and night classes. At the end of this period, a decision would be made as to whether the system would be retained and extended to night classes and summer sessions," Dr. De Kock said.

If the Honor System were accepted by the student body and faculty, new students, upon being admitted for enrollment at SCI, would be asked to sign a statement to the effect that they would be willing to take examinations under the honor system.

In briefly outlining the proposed system, Dr. De Kock said that all written examinations and tests would be administered in unproctored classrooms with the students assuming full responsibility for honesty in taking the tests.

Following the test the student would sign a pledge to the effect that he had neither given nor received assistance and that he had seen no dishonest work. Failure to sign the pledge would indicate that in the student's opinion

the system had been violated, Dr. De Kock said.

Violations of the system would then be referred to an Honor Council composed of seven students who would privately interview the accused, the accuser, and any witnesses that might be called by the council, he explained.

After reviewing the case, the council would render a decision as to the student's guilt, and if he was found guilty it would then recommend the punishment. Final responsibility for the decisions of the council would rest with the president, Dr. De Kock said.

Part of the proposed constitution is a recommendation that a test file be established in the library to which faculty members would contribute sample tests, he added.

"A group of about 40 student leaders will be invited to a discussion meeting this month. The committee will discuss the proposed constitution with the student leaders and ask their help in informing the student body of the honor system plans," he said.

Faculty members of the committee are Dr. Elaine McDavitt, Dr. David Bluhm, Dr. Richard Crumley, and Dr. DeKock. Students include Mary Ann Lee of Des Moines, Connie Stimpson of Lake View, Barb Vogt of Homestead, Roger Harlan of Winterset, and Dave Knock of Parkersburg.

Local Women Students Asked to Live in Own Homes

State College of Iowa women students whose homes are in the Waterloo-Cedar Falls area will be asked to live in their own homes rather than in college residence halls next fall.

The policy change will not go into effect until September of 1962, and will cause no changes for this year's second semester, which began Feb. 6. The policy will not apply to summer school students at the college.

During the past year a heavy demand for rooms in the women's residence halls has resulted in a seriously crowded condition in many rooms.

Classes of '02, '12 and '37 to Be Honored at June 3 Reunion

HONORED classes at the 1962 Alumni-Faculty Reunion are those of 1902, 1912, and 1937. The reunion, for all College alumni, will be held Sunday, June 3, the day of the College Baccalaureate.

Besides the opportunities to revisit the campus and meet former classmates, the honored classes and all other alumni of the College are invited to attend the breakfast and luncheon scheduled for June 3. Breakfast will be down-the-line, while the luncheon is set for 12:30. Alumni Service Awards, for outstanding service to the Alumni Association, will be presented at the luncheon, which will be presided over by Association President Marion Staley, '37. Group pictures of the honored classes will be taken before the luncheon.

A 6 p.m. dinner will be held for the class of 1912 on June 2, at which time

50-year medals will be presented. At 10:30 on June 3, the class of 1937 will have coffee in the Commons.

Invitations to the reunion will be sent to the honored classes. To facilitate arrangements, members of other classes who plan to attend should notify the alumni office.

Everyone will be more than welcome!

Common Market Theme For All-College Conference

The All-College Conference on International Affairs at the College will be held on April 24-26, with a theme: "The Common Market Concept: A New World Structure for the Nuclear Age."

Each year the conference considers a topic of international importance, usually one which involves conflicting interests and opinions among nations.

This year's parley will hear issues of the world common market, developed by leaders in business, government and the academic world.

The keynote address will be held the evening of April 24 in the college auditorium. Authorities in the common market problem will present their views in afternoon and evening lectures on April 25 and 26.

Previous ACCIA programs have dealt with issues of tensions in the Middle East, Germany and the fate of Europe, and China and the future of Asia.

State department officials from Russia, Tunisia, Nigeria and the United States presented their views on neutralism at last year's conference dealing with the theme "Neutralism: A Positive or Negative Force for World Peace."

Speakers for this year's conference will be announced at a later date by Dr. George Poage, faculty chairman and associate professor of history.

Four Named "Most Popular"

Two women and two men students at the State College of Iowa have chosen the most popular students on campus by a vote of the student body.

The women were chosen from a field of 18 candidates. They are Sandy Phillips, daughter of Mr. and Mrs. Carl E. Phillips of Cedar Rapids, and Myrna Spurling, daughter of Mr. and Mrs. Kenneth Spurling of Lake View.

The men, chosen from a field of 14

BRENDA JEAN GEIGER, Vinton freshman, has been chosen 1962 Old Gold Beauty Queen. Her attendants were Peggy DeShon and Dianne Denk of Davenport, Vicki Schultz of Waterloo, and Maureen Allison of Greene.

candidates, include Carroll Engelhardt, son of Mr. and Mrs. Curtis Engelhardt of Elkader, and Barry Geise, son of Mr. and Mrs. Bert Geise of Grand Mound.

College Enrollment Another Record Breaker

Second semester enrollment at the College is 3,926, according to Registrar Marshall R. Beard.

Dr. Beard pointed out that the figure is not final, but is indicative of another record-breaking second semester enrollment at State College. The final enrollment total for the second semester of last year was 3,440.

"Enrollment figures for the second semester usually drop between five and seven per cent from first semester totals," said Dr. Beard. "However, the decrease in our second semester figures this year show only a three per cent drop."

A possible explanation for the smaller decrease in second semester enrollment is the fact that more graduate students are enrolled for study than ever before. "In addition, there is a growing tendency for all students to remain in school longer and with more purpose," said Dr. Beard.

An analysis of the enrollment figure indicates that 1,867 men and 2,059 women have registered for second semester study.

Graduate students number 384, an increase of 76 over graduate student enrollment of 308 at this time last year.

Dr. Beard said that the women's enrollment now has surpassed the record-breaking women's enrollment set in 1925.

25 Works Added to Permanent Art Collection

Twenty-five art works were recently acquired for the State College of Iowa permanent art collection.

The art works were purchased for the college by David Delafield and Paul Smith of the State College department of art during their participation in the Artists' Equity Art Study Program in Europe last summer.

One of the selections is shown at the right.

President Keynotes AACTE Convention

Dr. J. W. Maucker, president of the State College of Iowa, gave the opening address at the convention of the American Association of Colleges of Teacher Education in Chicago.

He presented the annual Charles A. Hunt Lecture to convening administrators representing some 600 public and private institutions of teacher education.

Dr. Maucker assumed presidency of the AACTE on March 1.

The president spoke on the topic: "Imperatives for Excellence in Teacher Education."

Dr. Maucker has served on the executive committee of the AACTE since 1958, and represents the association on the Joint Commission of Education of Teachers of Science and Mathematics. He recently completed a term as chairman of the National Commission on Teacher Education and Professional Standards, and has served as a member of the problems and policies committee of the American Council on Education. He is president of the Iowa division of the American Association for the U.N.

guistics, and on analysis of poetry, fiction, and drama. Major emphasis will be on expository writing.

Secondary School Seminar in Science and Mathematics. The science program will help participants develop independence in learning through sharing and critically reviewing ideas and information obtained from research and laboratory experimentation. Topics in mathematics will be studied from the modern point of view, with emphasis on the organization of mathematics as a logically structured system.

Music. As an instrument of learning, pupils will use music to discover how man communicates feelings and emotions, while group singing and discriminating listening will help children understand music and its contribution to daily living.

Art and Industrial Arts. Pupils will be provided experience in designing, painting, poster making, ceramics, and woodworking; and will be helped in using art and industrial arts tools and materials.

Swimming. Swimming instruction will be given to every child attending the summer session, with each child instructed at his own skill level. Safety in swimming will be emphasized.

CAMPS

Conservation Camp

Springbrook Park, Guthrie Center, Ia.

First Session June 10 to June 30

Second Session July 1 to July 21

Third Session July 22 to Aug. 11

Courses offered: Biology 104g and 105 g which deal with the problems of conservation. Each session, 3 semester hours credit.

For information and reservation of a place, write to Mr. Bernard Clausen, Department of Science, SCI.

Lakeside Laboratory

First Session June 11 to July 13

Second Session July 16 to Aug. 17

The Laboratory is open to juniors, seniors, and graduate students upon approval of Dr. Clifford McCollum,

Head of the Department of Science, SCI.

WORKSHOPS

Elementary Social Studies and Aerospace Education—June 25-July 6—2 semester hours credit. New developments in elementary social studies, including map reading, use of newspapers and magazines, new books, geography and aerospace concepts. Designed for elementary teachers, principals, supervisors and curriculum directors. For further information write to Dr. William Dreier, Department of Education and Psychology, SCI.

Elementary Leaders—July 9 to July 20—2 semester hours credit. Designed for elementary principals, curriculum directors and supervisors to help identify and work toward solution of problems in elementary education. For further information write to Dr. Frank Martindale, Department of Education and Psychology, SCI.

Elementary Reading—July 23 to August 3—2 semester hours credit. New materials, methods, and research in the teaching of reading in the elementary school. For further information write to Dr. Esther Hult, Department of Education and Psychology, SCI.

POST SESSION

Two semester hours of credit may be earned during the Post Session.

The Post Session is open to juniors, seniors, and graduate students.

Plans are reasonably definite for the following offerings:

15:133g Workshop in Business Education—Mr. Leonard Keefe, Department of Business Education

21:133g Workshop in Elementary Education—Dr. William Dreier, Department of Education and Psychology

21:133g Workshop in Secondary Education—Dr. Merritt Melberg, Department of Education and Psychology

30:133g Workshop in Safety Education - "Aids to Instruction"—Mr. Ivan Eland, Department of Education and Psychology

30:132g Directing the Safety Program

—Dr. Peter Mazula, Department of Education and Psychology

SPECIAL PROGRAMS

Summer Institute in Social Science—June 18 to August 10, 1962—8 semester hours credit. (See story elsewhere.)

Mathematics Institute for Junior High School Teachers—June 18 to August 10—8 semester hours credit. (Enrollment now closed.)

National Defense Education Act Summer Institute in Counseling and Guidance—June 18 to August 10—8 semester hours credit. Twenty-five stipends of \$75 per week plus dependency allowance will be awarded to teachers who seek to prepare themselves for professional counseling positions in the secondary schools. Applications must be in by March 21. Information and application forms

'32

Almeda G. Nelson, B.A. '32, died Dec. 31, 1961. Miss Nelson taught in the Des Moines schools for 29 years and was principal at Moore Elementary school at the time of her death.

'37

The Alumni Office recently learned of the death of Weldon F. Thompson, on December 9, 1960. Mr. Thompson received an M.A. degree from the State University of Iowa in 1943 and had taught in Newton, Iowa, for a number of years.

'60

Joyce Eloise Lutter, B.A. '60, died October 18, 1961. Miss Lutter taught one year in the high school in Dubuque. She is survived by her parents.

'47

Mr. and Mrs. R. F. Tucheck (Josephine Ann Whitney), Elem. '47, 206-6th Ave. E., Cresco, are the parents of a son, Thomas John, born November 12, 1961. They have four other children, Richard 13, Rebecca, 9, Roberta, 8, and Ann Frances, 1.

'48

Mr. and Mrs. Charles J. Kupka (Celeste L. Hoover), B.A. '48, 202 South State, Tama, are the parents of a daughter, Carol Marie, born December 4, 1961. They also have four other children, Susan, 9, Joseph, 7, Thomas, 4, and Barbara, 2.

'50

Mr. and Mrs. William C. Byrus (Betty B. Dana), Elem. '50, Box 1, West Bay Station, Panama City, Florida, are the parents of a daughter, Elizabeth Sue, born September 25, 1961. They also have a son, William Dana, 5½, and a daughter, Rebecca Ann, 3½.

Mr. and Mrs. B. J. Wagner (Mary Jane McCuskey), Elem. '50, 3124 Twana Dr., Des Moines 10, are the parents of a daughter, Mary Cleone, born June 5, 1961. They also have two sons, Brad, 4, and Scott, 2.

Mr. and Mrs. W. H. Connnett (Ruth Arlene Sorensen), B.A. '50, 4908 S. 14th St., Arlington 4, Virginia, are the parents of a daughter, Kirsten Ann, born May 12, 1961. They also have a son, Joseph Andrew, 3.

'50 & '49

Mr. and Mrs. David S. McClure (Marjorie Ann Winther), B.A. '50 and B.A. '49 respectively, 466 Polk St., Twin Falls, Idaho, are the parents of a daughter, Carolyn Sue, born September 27, 1961. They also have three sons, John, Daniel and Matthew.

'51

Mr. and Mrs. Darel Mensch (Joan M. Dinkel), Elem. '51, 300 W. North, Geneseo, Ill., are the parents of a son, Charles Joel, born February 24, 1961. They also have three daughter, Jill, 7, Marla, 6, and Kathy, 2.

'52

Mr. and Mrs. Roger Coffey (Betty Jean Hicks), B.A. '52, 126 Ivy Drive, Council Bluffs, are the parents of a daughter, Debra Michelle, born July 30, 1961. They also have three other children, Ann, 7, Claudia, 3, and David, 1½.

Dr. and Mrs. Richard E. Geiger (Marilyn Audrey Humphry) B.A. '52, 716-18th St., S.E., Cedar Rapids, are the parents of a daughter, Valerie Jeanne, born March 20, 1961.

Mr. and Mrs. Barry C. Saunders (Marjorie Ruth Nordholm) B.A. '52, 984 Emporia St., Denver 8, Colorado, are the parents of a daughter, Kristin Ruth, born March 30, 1961.

Mr. and Mrs. Robert Den Hartog (M. Burnita Nordyke), Elem. '52, 415 First Ave., Iowa City, are the parents of a daughter, Bobi Kai, born October 31, 1961.

Mr. and Mrs. James H. Stange (M. Suanne Peterson), B.A. '52, 3545 Calvert, Lincoln 6, Nebraska, are the parents of a son, Drew Dayton, born March 29, 1961. They also have a son, Wade Weston, 4.

'53

Mr. and Mrs. Donald F. Wolfgram (Donna Mae Crawford), Elem. '53, Traer, are the parents of a son, Mark Alan, born May 23, 1961. They also have a son, Martin, 5.

Mr. and Mrs. George Meissner (Dolores V. Grosch), 373 N.E. Mississippi St., Minneapolis 21, Minn., are the parents of a daughter, Debra Jean, born November 4, 1961. They also have a son, David, 5, and a daughter, Darcie, 4.

Mr. and Mrs. John F. Osteroot (Nancy Jane Hintz) B.A. '53, 5726 Garfield Ave. S., Minneapolis 19, Minn., are the parents of a son, John Burdette, born October 8, 1961.

Mr. and Mrs. Keith L. Branum (Adrienne Ann Schindel) Elem. '53, Merrill, are the parents of a daughter, Ann Elizabeth, born April 6, 1961.

'54

Mr. and Mrs. Donald G. Hesse (Coral A. Krukow), Elem. '54, 1122-6th Ave., DeWitt, are the parents of a daughter, Kathleen Elizabeth, born February 9, 1961. They have three other children, Doug, 5½, Joellyn, 4, and Susan, 2.

Mr. and Mrs. Howard Collingwood, (Donna Mae Mitchell) Elem. '54, 627-9th Ave., Belle Plaine, have adopted a daughter, Lynette Marie, born February 22, 1961.

Mr. and Mrs. Philip T. Van Ekereh (Berta J. Wittmer), B.A. '54, Box 241, Monroe, are the parents of a daughter Jo Ellen, born August 28, 1961. They also have a daughter, Janice Rae, 2½.

Mr. and Mrs. Seigfried S. Kagawa (Betsy M. Yamashita), B.A. '54, 758 Iana St., Kailua, Hawaii, are the parents of a son, Steve, born December 4, 1961. They also have a daughter, Kathy Jo, 6.

'55

Mr. and Mrs. Glen Carlson (Audre E. Becvar), Elem. '55, R. R. 2, Lena, Illinois, are the parents of a daughter, Julia Ann, born August 18, 1961.

Mr. and Mrs. Robert W. Meyerhoff (Della L. Collins), Elem. '55, 879 Pammel Court, Ames, are the parents of a daughter, Barbara Jeanne, born October 12, 1961.

Mr. and Mrs. Paul W. Dickson (Mary J. DeHaven), Elem. '55, 4029 Crestview, Cedar Falls, are the parents of a son, David Paul, born October 3, 1961.

Mr. and Mrs. James Schneekloth (Jacqueline K. Gross), Elem. '55, 154-15th Ave. S. W., Cedar Rapids, are the parents of a son, Timothy Scot, born February 14, 1961. They also have a son, Michael Jay, 2.

Mr. and Mrs. Keith Gray (Betty Jean Keese), Elem. '55, 102 N.W. 6th, Greenfield, are the parents of a daughter, Brenda Lee, born September 14, 1961. They also have two other daughters, Carmel Anne, 3, and Pamela Jean, 2.

Mr. and Mrs. David L. Wiese (Shirley

Wins Role in Broadway Musical "Camelot"

Philip Rash, '61, has auditioned successfully for a role in the singing and dancing ensemble of the Broadway musical "Camelot" now playing in New York City.

Rash

Rash resigned from the Manhattan Light Opera group to join the Lerner and Loewe production which continues its long and successful run at the

Suanne Jones and Max E. Huffman (B.A. '61), 2104 College St., Cedar Falls.
Carol A. Boothby and Kevin K. Schreurs (B.A. '61), 107½ E. Bremer, Waverly.

THE MAIL BOX

Alumni are invited to send us news about themselves or other graduates. We will print as many as we have room for. We must reserve the right to edit the letters to meet space requirements.

SCI is very much on my mind at the moment—Bert and I are yelling for S.C.I. to beat South Dakota State. Believe it or not KXEL is coming in “as clear as a bell.” It’s now half time with our team leading—just having taken the lead with a few seconds left in the first half. It certainly sounds strange to us to hear “The Loyalty Song” and reference being made to the “Panthers.”

We see Ron Roskens (B.A. '53) and his family (Lois Lister Roskens, B.A. '54) several times a year. Ron is Dean of Men at Kent State University. You probably know that Tom Hansmeier, B.A. '54) works with Ron as assistant Dean of Men.

I got my doctorate from Indiana University in June of 1960. It's the Doctor of Education degree—Major—College Personnel. I'm in my second year as Dean of students at Wilmington College here in Wilmington, Ohio. We have two children—Timothy, age 4 and Susan, age 2. Our address is 542 Douglas Street, Wilmington, Ohio. **Norbert “Nebbs” Baumgart.**

P.S. I wonder how far KXEL reaches out—has anyone written to you indicating they have heard games from distances greater than Ohio?

We had a note from Van Combs, in New York, that he and his wife, Peggy, had listened there to a Panther football game. KXEL, 1540 m.c., is not a clear channel station, but packs 50,000 watts.—Ed.

I'm visiting this land of Buddha, the Grand Palace of Bangkok and finding everything most fascinating! Visited Manila which was interesting and enjoyable. Will be heading to Puala Lumpur, Singapore (over Christmas) and Hong Kong (over New Year's) before returning to Tokyo. There are twenty-

four teachers in our tour group—we'll be having a real Thai dinner and will be going to see their classical dancing tonight!

Enjoying my year in Far East; teaching right on base so no need for any transportation. I'm located in Tokyo which is surely convenient. Have seen the many different kinds of drama plays and have gone away over week-ends visiting.

Ruth Matsui, B.A. '56, Box 1, Det. #3, 6100th Support Wing, APO 94, San Francisco, Calif.

After a pleasant and relaxing tour of Europe I arrived finally to my homeland. I flew to Addis Ababa Dec. 3, 1961, Sunday morning. Many friends and relatives were at the airport to meet me. I reported to the Ministry of Education the following day. Apparently the Ministry was looking for an elementary person, and I was found to be the right person for the job. And my appointment was made effective on the same day. December 4th. I am quite eager to face this new challenge and the job is one close to my heart. I'll be involved in Curriculum Development, Planning and Study of Elementary Programs and Problems, expansion and redistribution of primary and community schools, and implementation of programs. It looks that I'll be going out into the provinces for a first hand study of existing educational conditions. Now that I am at the heart of our educational problems, and I am challenged to put theory into practice and I welcome this challenge. . . . The future looks bright, but it will involve hard work and clear thinking and a lot of imagination.

Haile J. Abedjie, B.A. '61, Research and Curriculum Dept. Ministry of Education, Addis Ababa, Ethiopia
